# **Ammo Canisters vs. Panniers**

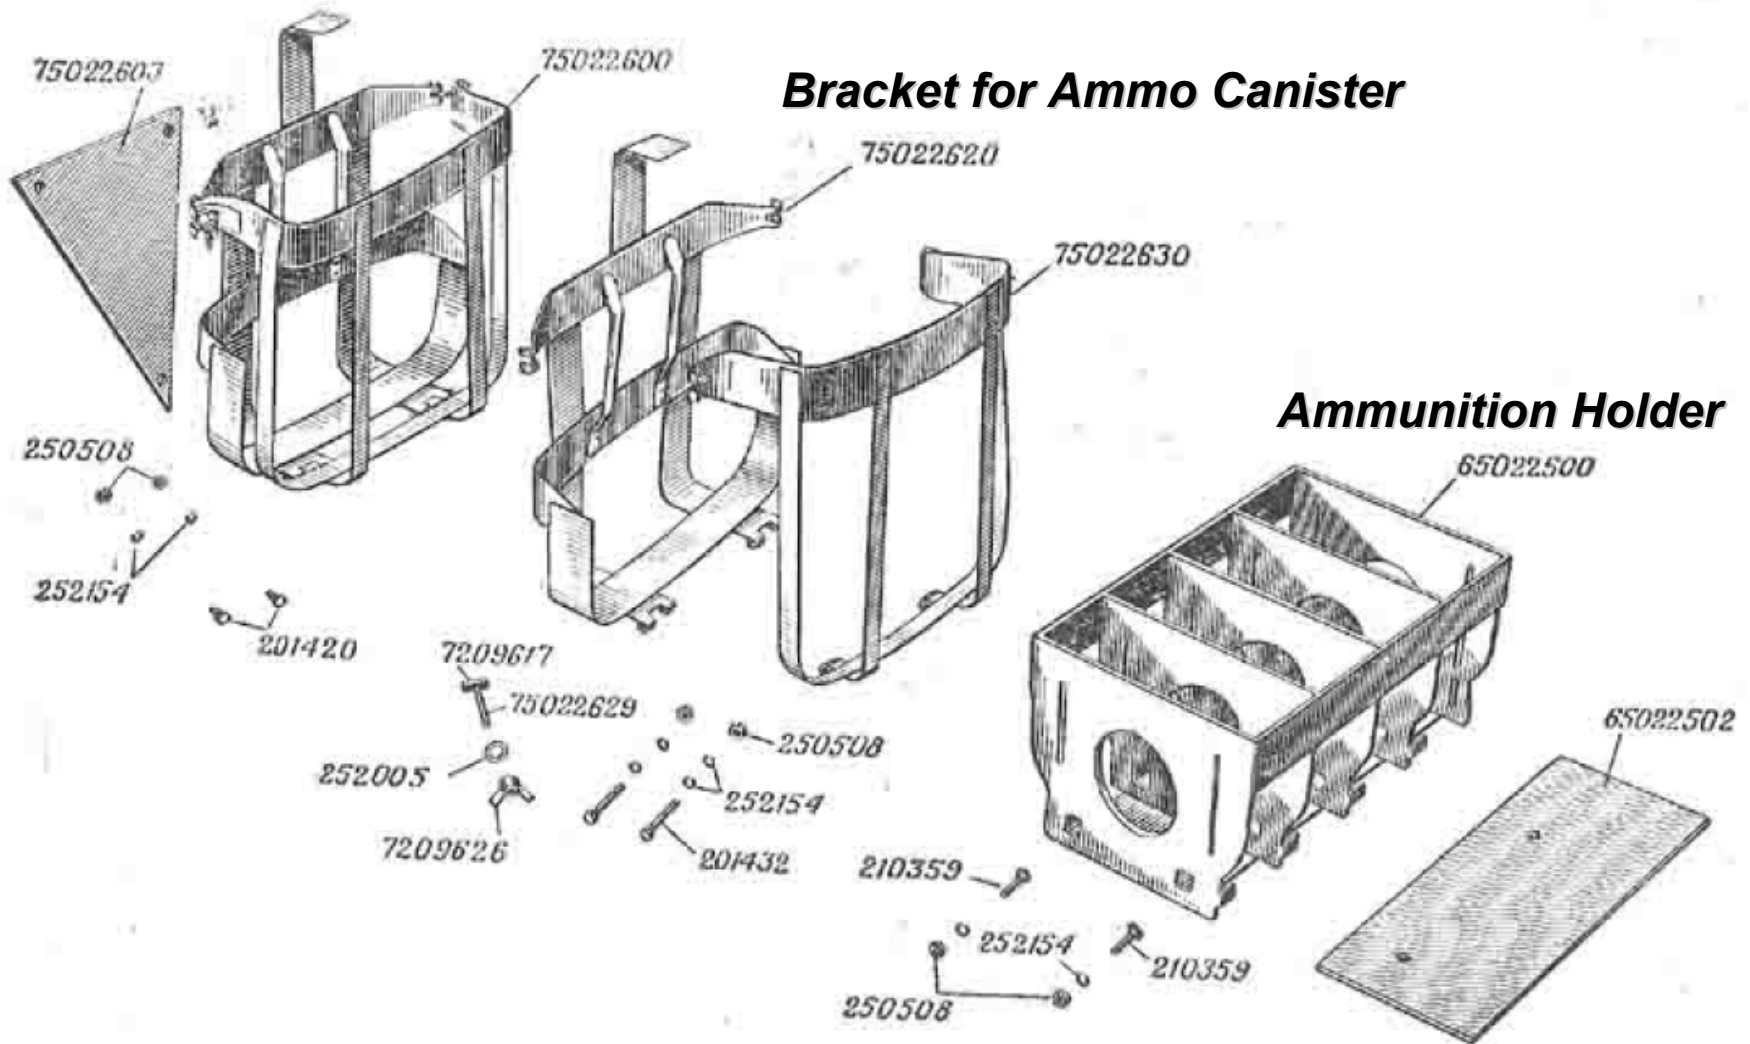

**(Silver Goose @ <http://www.silvergoosestore.biz>,  
and Bill Glaser @ [http://myural.com/ural\\_accessories.htm](http://myural.com/ural_accessories.htm))**

**Contrary to popular myth, panniers are not ammo boxes. Ammo might have been carried in them, but they were not designed with that purpose in mind. These are general purpose panniers for tools, parts, vodka, etc. Panniers are available through European vendors. IMWA (Irbis MotorWorks of America) sells a modernized version of these through their dealer network. Most are new-made copies, not NOS (new old stock).**
